## Brand Overview

- **Brand Name:** La Maison de Gador (with accent: GADoR)
- **Tagline (EN):** "The Art of Adoration"
- **Tagline (AR):** "The Art of Tasting"
- **Industry:** Premium/luxury stuffed dates and chocolate dates
- **Market:** Qatar (Gulf region)
- **Competitors:** Bateel, Qinwan, Forrey & Galland

## The Phoenix Symbol

**Keep the phoenix. It's a strong differentiator.**

No competitor in the dates market uses a phoenix symbol.

### Phoenix Direction:

- **Style:** Elegant, refined, geometric — NOT overly illustrated or cartoon-like
- **Pose:** Wings spread upward (like the golden version on cover)
- **Details:** Simplified feather lines, clean silhouette. Recognizable at 32x32px (favicon)
- **Accents:** Small teal/turquoise flame details on the crest and tail tips

**What NOT to do:**

- No hyper-detailed illustration (the old teal phoenix is too complex)
- No thick outlines
- No 3D effects or gradients in the primary version

**Deep Gold**
#C5A34E
